4. Cele dydaktyczne

Celem ćwiczeń jest przybliżenie studentom znaczenia niektórych powszechnie spotykanych eufemizmów w języku angielskim, rozwinięcie tematu zmian zachodzących we współczesnym języku mediów, polityki i zjawisk społecznych lub też uzupełnienie innej lekcji o pokrewnej tematyce.

Eufemizmy stosowane we współczesnym języku budzą zainteresowanie studentów, których na ogół tematyka ta bawi.

Tekst autorstwa Roba Kyffa przytacza przykłady eufemizmów wraz z ich znaczeniem. Quiz na dopasowywanie eufemizmów do ich znaczeń (ćwiczenie 4), przeprowadzany w parach lub grupach trzyosobowych, dostarczy znakomitej zabawy z uwagi na często nieoczywiste znaczenia niektórych eufemizmów.

Ćwiczenia 5, 6 i 7 ze względów organizacyjnych najlepiej jest przeprowadzać w parach (użycie słowników).

Ćwiczenia 1, 2, 3, 8 oraz 9 najlepiej jest przeprowadzać, dając studentom czas na przedyskutowanie w parach możliwych odpowiedzi, a następnie porównanie ich na forum grupy. Przy współpracy aktywnych studentów ćwiczenia 8 oraz 9 mogą się przekształcić w interesującą dyskusję na temat zmian zachodzących w znaczeniu pojęć oraz tego, jak język mediów, polityki i zjawisk społecznych komentuje współczesną rzeczywistość.

Deceivers ‘Eup’hanize the Language

By Rob Kyff

Euphemisms are linguistic brooms that try to sweep everything — from taxes to sex to baldness — under the rug (in the case of baldness, literally under the rug). Death insurance becomes “life insurance,” indecent exposure becomes a “wardrobe malfunction” and an “invasion” becomes an “incursion.”

Discount stores, for instance, now call customers “guests” and employees “associates,” while businesses refer to salespeople as “marketing representatives.”

The airline industry, given its association with danger, discomfort and delays, is rife with sugar-coated words: life preservers are “flotation devices,” first-class seating is now “business class,” and the table where you place your coats, gloves and hats for security screening is called a “divestment table,” as if you were shedding some low-performing stocks.

Even “euphemism” has been used euphemistically. When the character Honey in Edward Albee’s play, *Who’s Afraid of Virginia Woolf*, says she’d like to “powder her nose,” George asks his wife to “show her where we keep the euphemism.”

Let’s put the “you” in euphemisms. See whether you can match each euphemism with its meaning.
