

## Call for Papers

### Disinformation in the Digital Age: Challenges, Dynamics, Countermeasures

**Submission Deadline: May 5, 2025**

The editorial board of the scientific journal [\*Zoon Politikon\*](#) invites submissions of academic articles exploring the broad spectrum of issues related to **disinformation** and its associated phenomena, such as fake news, deepfakes, propaganda, and post-truth.

In an era of rapidly advancing digital technologies, disinformation has become one of the most critical social, political, and technological challenges. Its impact on politics, public health, education, media, international relations, and democratic processes necessitates interdisciplinary analyses and innovative research approaches.

We welcome submissions from scholars representing diverse academic disciplines, including sociology, psychology, communication studies, political science, law, philosophy, media studies, and other fields within the humanities and social sciences. Submissions may include theoretical, empirical, and methodological contributions.

### Suggested Topics:

- Mechanisms of creation and dissemination of disinformation in traditional and digital media;
- Technologies enabling disinformation, including deepfakes and manipulative algorithms;
- Psychological, social, and cultural dimensions of susceptibility to disinformation;
- The role of fake news in global crises, such as pandemics and climate change;
- Information policy, and propaganda from an international perspective;
- Legal, regulatory, and ethical frameworks for addressing and mitigating disinformation;
- Educational initiatives and technological innovations for addressing disinformation;
- Relationships between disinformation, conspiracy theories, and social polarization;
- The impact of disinformation on democratic processes and national security;
- Disinformation as a geopolitical tool.

**Submission Guidelines:**

- Articles may be submitted in Polish or English.
- Word count: 6,000–10,000 words.
- Manuscripts should adhere to the journal's [submission guidelines](#).
- All submissions will undergo a double-blind peer-review process.
- Articles must be submitted via the [journal's website](#) by May 5, 2025.
