The „Medycna Nowożytna” Editorial Committee, committed to maintaining high publication standards and the integrity, reliability, and transparency of scholarly research, fully endorses the position and guidelines set forth by the Committee on Publication Ethics (COPE) and the Association of Polish University Publishers (SWSW) regarding the use of Artificial Intelligence (AI) and Generative Artificial Intelligence (GAI) in academic writing. In accordance with these recommendations, the Publisher hereby establishes the following principles:

1. Authorship: Authorship of scholarly texts is reserved exclusively for humans. AI tools cannot be credited as an author or co-author.
2. Transparency in Scholarly Work: Any author utilizing Artificial Intelligence (AI) or Generative Artificial Intelligence (GAI) must provide a precise and transparent disclosure detailing how these technologies were employed in the preparation of the manuscript.

Author Declaration on the Use of Artificial Intelligence (AI) and Generative Artificial Intelligence (GAI) in Scholarly Writing

Author's Full Name: ……..
Title of the Manuscript: ……..

As the Author/Co-author of the aforementioned work, I hereby declare that:

[ ] No Artificial Intelligence (AI) or Generative Artificial Intelligence (GAI) tools were used during the preparation of this publication. *(If this box is checked, the Author does not need to complete Sections 1–6).*

[ ] Artificial Intelligence (AI) or Generative Artificial Intelligence (GAI) tools were used during the preparation of this publication in the scope and form described below. *(If this box is checked, the Author is required to complete Sections 1–6).*

1. Scope of AI/GAI Tool Usage:
[ ] Content generation (e.g., drafting text, summaries, introductions)
[ ] Grammar, style, or spelling checks
[ ] Translation of text
[ ] Data analysis
[ ] Data visualization (e.g., creating charts, diagrams, or graphics)
[ ] Research process support (e.g., statistical analysis)
[ ] Generation of references or footnotes
[ ] Other (please specify): .....

2. Specific AI/GAI Tools Used:

[ ] ChatGPT (OpenAI)
[ ] DeepSeek
[ ] DeepL (AI Translator)
[ ] Grammarly
[ ] Bard / Gemini (Google)
[ ] MidJourney / DALL E (Image generation)
[ ] Other (please specify): .....

3. Extent of Verification (Review of AI-generated content before final inclusion):

[ ] All sections were verified and reviewed.
[ ] Some sections were used without verification.
[ ] All generated content was used without verification.

4. Modification of AI/GAI-generated content before final inclusion:

[ ] All sections were verified and modified.
[ ] Most sections were modified.
[ ] Some sections were used without modification.
[ ] All generated content was used without modification.

5. Impact of AI/GAI Tools on the Substantive (Intellectual) Content of the Work:

[ ] AI/GAI had a substantial impact on the substantive content.
[ ] AI/GAI had a moderate impact on the substantive content.
[ ] AI/GAI had only a technical impact (e.g., linguistic corrections).
[ ] AI/GAI had no significant impact on the substantive content.

6. Sections of the work where AI/GAI tools were employed:
