

## Contents

### ARCHITECTURE AND URBAN PLANNING

Julia Kurek, Justyna Martyniuk-Pęczek <i>Forecasted climate changes and their influence on cities and regions in 2050 in terms of extreme hydrological events</i> .....	5
Cecilia Maria Roberta Luschi <i>Among the archaeologists and the designers: a critical survey of Sant'Andrea of Acre in Israel</i> .....	27
Krzysztof Petrus <i>The restitution of Garbary, Cracow's largest suburb, after the destruction caused by the invasion of archduke Maximilian Habsburg in 1587</i> .....	39
Mariusz Twardowski <i>Football Stadiums – Icons of Sports Architecture</i> .....	53
Elżbieta Węclawowicz-Bilska, Martin Vaščak <i>Contemporary transformation of traditional Polish health resorts against the background of changes observed in balneological centers around the world</i> .....	71

### CIVIL ENGINEERING

Kazimierz Furtak <i>The effect of changing loads on the deflection of RC beams reinforced with ribbed bars</i> .....	87
Piotr Woźniczka, Marek Piekarczyk <i>The fire resistance of steel plate girders with slender webs – a comparative study</i> .....	97

### ELECTRICAL ENGINEERING

Wojciech Czuchra, Bartosz Woszczyzna <i>Measurement and simulation testing of harmonics in the on-board power grid of traction vehicles</i> .....	105
Marek Dudzik, Janusz Prusak, Sławomir Drapik, Valeriy Kuznetsov <i>The efficiency of using artificial feedforward neural networks with a single hidden layer of eight neurons for the analysis of overload conditions of selected tramway traction substations</i> .....	119
Dominik Oćwieja, Paweł Markowski, Janusz Prusak, Bartosz Woszczyzna <i>The range of load variability of rectifier units with a concentrated disposition of tram substations as exemplified by a real tram line</i> .....	133

### ENVIRONMENTAL ENGINEERING

Barbara K. Wilk, Aleksander J. Urbański <i>The impact of the shape of screen openings on groundwater flow to a deep drilled well</i> .....	149
---	-----

### MECHANICS

Kinga Brózda, Selejdak Jacek, Peter Koteš <i>Analysis of the crack width of beams reinforced with FRP bars</i> .....	163
---	-----

Ryszard Dindorf, Piotr Woś  
*Sensorless step positioning of hydraulic linear actuator* ..... 169

Agata Dudek, Barbara Lisiecka, Katarzyna Strzelczak  
*Assessment of the quality of epoxy coating in the automotive industry*..... 175

Czesław Kundera, Tomasz Kozior  
*Assessment of mechanical properties of pa 3200 gf polyamide models made by SLS* ..... 181

Dominik Kwiatkowski  
*Air consumption survey for pneumatic cushion in different nozzle configurations during moving loads*..... 187
