ARCHITECTURE AND URBAN PLANNING

Kazimierz Kuśnierz, Dominika Kuśnierz-Krupa, Michał Krupa <i>Comments to the history of spatial development of Wiślica in the Middle Ages</i>	5
--	---

CIVIL ENGINEERING

Wojciech Drozd <i>Identifying and profiling the patterns of construction accidents using affinity analysis</i>	15
Krzysztof Ostrowski <i>The influence of coarse aggregate shape on the properties of high-performance, self-compacting concrete</i>	25
Edyta Plebankiewicz, Krzysztof Zima, Damian Wieczorek <i>Quantification of the risk addition in life cycle cost of a building object</i>	35
Mieczysław Połośki, Jan Kowalski <i>The identification of hazards concerning the character of construction works on railway sites in Poland</i>	47
Daniel Przywara, Adam Rak <i>The time-cost analysis of schedule monitoring using the earned value method</i>	57
Jerzy Rosłon <i>The multi-mode, resource-constrained project scheduling problem in construction: state of art review and research challenges</i>	67

COMPUTER SCIENCES

Piotr Zabawa <i>Notions of context-driven meta-modeling (CDMM)</i>	75
---	----

ENVIRONMENTAL ENGINEERING

Michał Polus, Anna M. Anielak <i>The use of Archaea in the bioaugmentation of activated sludge as a method for the biological removal of nitrogen compounds</i>	83
--	----

MATHEMATICS

Maciej Zakarczemny <i>One some cancellation algorithms II</i>	97
--	----

MECHANICS

Zygmunt Dziechciowski, Igor Kozłowski <i>Determination of minor loss coefficients of air by-pass brake used in pneumatic tube systems</i>	105
--	-----

Evgeniy Kalinin, Sergey Ershov	
<i>Cell modeling of mass transfer in a dewatering process of fiber materials</i>	
<i>by distributed pressure</i>	123
Jerzy Kamiński, Stanisław Spytkowski	
<i>Gas dispersion and solid suspension in liquid by independently driven impellers</i>	129
Janusz Krawczyk, Łukasz Wawszczak	
<i>Environmental interaction assessment of voc's emission under emergency</i>	
<i>work of IPPC installation</i>	141
Beata Niezgoda-Żelasko	
<i>Enhancement of the boiling process of refrigerants with high temperature</i>	
<i>glide and low GWP</i>	151
Tatiana Nikiforova, Sergey Natareev, Vladimir Kozlov	
<i>Specific features of sorption kinetics of heavy metal ions with polysaccharide</i>	
<i>materials from aqueous media</i>	163
Sebastian Pater, Włodzimierz Ciesielczyk	
<i>Real and theoretical energy efficiency of vapour compression heat pumps</i>	185
Monika Pawlita-Posmyk, Małgorzata Wzorek	
<i>Domestic sewage treatment plant or ecological septic tank</i>	195
Irina Postnikova, Valerian Blinichev	
<i>System approach to calculating processes in the apparatus of combined action</i>	205
Szymon Tengler, Kornel Warwas	
<i>Driver comfort improvement by a selection of optimal springing of a seat</i>	217
