

## Contents

### ARCHITECTURE AND URBAN PLANNING

Teresa Bardzińska-Bonenberg <i>1960's polish modernistic industrial buildings today</i> .....	5
Wiesława Gadomska <i>Governors Island: a new park in New York</i> .....	15

### CHEMISTRY

Krzysztof Neupauer, Krzysztof Kupiec <i>Heat transfer during storage of hot liquid in the tank</i> .....	27
---	----

### CIVIL ENGINEERING

Wacław Andrusikiewicz <i>Effect of salt mining on land surface</i> .....	39
Robert Bucóń, Michał Tomczak <i>Nalysis of green solutions for new residential projects</i> .....	61
Małgorzata Gołaszewska, Marek Salamak <i>Challenges in takeoffs and cost estimating in the BIM technology, based on the example of a road bridge model</i> .....	71
Bożena Hoła, Mariusz Szóstak <i>A mathematical model of accident event development in the construction industry</i> .....	81
Krystyna Kuźniar, Tadeusz Tatara <i>Assessment of the influence of epicentral distance of mining shocks on the transition of free-field vibrations to building foundations</i> .....	91
Krzysztof Czernek, Małgorzata Płaczek <i>Hydrodynamics of two-phase flow in tubular reactor</i> .....	101
Roman Milwicz, Jerzy Pasłowski <i>Multiphase construction in single family housing. Case study</i> .....	115
Aleksander Nicał <i>Outlook for the implementation of selected ambient assisted living concepts for panel building</i> .....	123
Paweł Szeptyński <i>Influence of non-uniformity of cracking on calculation of deflection of reinforced-concrete elements, according to Eurocode 2</i> .....	131

### COMPUTER SCIENCES

Piotr Zabawa <i>Simulation of the CDMM-P paradigm-driven meta-modeling process</i> .....	143
---	-----

## ENVIRONMENTAL ENGINEERING

Bartłomiej Macherzyński, Maria Włodarczyk-Makuła, Ewa Ładyga, Władysław Pękała <i>Comparison of parameters co-fermentation process of municipal sewage sludge with excess sewage sludge from treated coking wastewater</i> .....	155
---	-----

## MECHANICS

Roman Dyga <i>Metal foams as structural packing in the construction of process equipment</i> .....	165
Vladimir Frolov, Valerian Blinichev, Anatoly Bogorodsky, Alexander Vetyugov <i>Research of the influence of abrasive wear of grinding bodies in the rotational vibration mill</i> .....	179
Aleksandr G. Lipin, Andrey A. Lipin, Ryszard Wójtowicz <i>Mathematical modeling of heat and mass transfer of particles encapsulation in a fluidised bed</i> .....	189
Damian Semba, Anna Trusek-Hołownia <i>Generation of homo- and heterogeneous microcapsules and their application</i> .....	197
Marian Sikora <i>The pressure and the vibration measurement in automotive shock absorbers</i> .....	209

## PHYSICS

Wojciech Otowski, Gabriela Lewińska <i>Light sources and their influence on vision organ</i> .....	219
---	-----
